SQL Server, MySQL, Entity Framework

Versiebeheer:
Git, SVN

Methodology:
Agile , Scrum

WORK EXPERIENCE

Trinsy Technics / On IT (Malle)
2011 - 2024

Developed and maintained .NET applications, including WinForms and ASP.NET, and implemented API integrations with external services like Exact Online and Autotask using RESTful APIs. Designed and optimized database solutions with Entity Framework, and set up a custom Identity Server for secure authentication and authorization. Contributed to the development of a nursing call system for retirement homes, integrating IO signals and ensuring compliance with data protection regulations. Worked closely with government agencies on medical data exchange and resolved technical issues to ensure system reliability.

Bewakings agent
2004 - 2018

Static guardian at a fluxys facility

EDUCATION

Thomas More University
Bachelor Electronics-ICT
2024-Present

Salus Nostra
Certificate BSO 2nd degree Secondary education Office
